Any transfers between the accommodation location and the building site in the area of assignments will be organized, and remunerated, by your company.

We allow for the fact that all additional expenses which are incurred in conjunction with the assembly assignment, such as travel to and/or from the building site, excess baggage charges, Visas or where applicable medical check-ups, additional travel expenses at the assignment location and expenses for any required hired vehicles or any other unforeseen expenses will be remunerated following submission of the relevant receipts and/or invoices, plus 15 % for marketing, selling and administrative expenses. Any required travelling arrangements will be organized by your company including, when applicable, the necessary visas and introductory paperwork as required for the country of assignment.

Travelling from and to Germany is invoiced at a flat rate of 1.200 Euro per person / per visit.

The aforementioned expenses especially relate to any legal and/or tax advisory services, fees, contributions and expenditures incurred by the employees which are directly related to the assignment.

Dependent on the assignment and the operations to be executed, any necessary specialized tools/equipment and measuring equipment, as well as a laptop incl. the required software and ancillary equipment, as well as communication media (telephone, also mobile, fax, internet) will be provided by your company, at no extra cost, for the duration of the assignment.
